JRL Professional Clipper Lineup

Power vs Precision Matrix

Find the Tool That Matches Your Cutting Style

DIAMANTE 2025C The Power Beast

Our top flagship clipper. Built for barbers who demand maximum speed and aggressive bulk removal.
If you want the strongest cutting performance in the lineup, choose 2025C Diamante.

3000C The Adaptive Performer

Designed for modern barbers and stylists who want flexibility and control.
If you like versatility and balanced performance, choose 3000C.

ONYX 2020C-B The Reliable Workhorse

A proven professional tool trusted for daily shop use.
If you value consistency and dependable performance, choose ONYX.

2020C The Classic Craftsman

Built for traditional taper cuts and controlled precision work.
If you prefer a softer cutting feel with classic handling, choose 2020C.
